## MESSAGE FROM THE PRINCIPAL

Dear parents,

### “Navigating Change in Today’s World”

Heraclitus once said, “ There is nothing permanent except change.” This ancient Greek philosopher’s words resonate strongly today, emphasizing the necessity of adaptation, acceptance and resilience in the face of inevitable changes in life.

The perspective on change is crucial. While meaningful, well-researched, and planned changes can be beneficial and thriving, there’s a growing concern about trend –driven changes, especially in parenting. These abrupt shifts, made to follow trends or please others, can negatively impact children’s stability, security and emotional development.

Peer-driven changes also pose challenges, as what works for one child may not work for another. Making changes solely to appease others or due to confusion can send mixed signals to children affecting their understanding of consistency and predictability.

Reactive changes based on temporary reactions may result in a lack of resilience and problem solving skills.

Demand –driven changes influenced by peer pressure can hinder the development of patience and perseverance in children.

It’s crucial for parents to approach changes responsibly, fostering a solution-driven mindset, collaboration, resilience and adaptability to meaningful changes. Building these skills help children face challenges effectively, without succumbing to constant, impulsive changes that may undermine their long time well-being.

This thought provoking message may be apt for parents , teachers & students to adapt to the ever-changing diversified world.

## PHONICS FINAL ROUND – CLASS I & II

### “When children master sounds, they unlock the joy of reading.”

Phonics Final Round Competition for Class I & II was conducted on Friday, 28 th November 2025, showcasing our young learners’ growing confidence in reading, blending, and decoding skills. The event featured engaging rounds such as sound identification, blending challenge, tricky words, digraph detectives, and spell-the-sound, encouraging students to think fast and apply phonics rules accurately.

Students participated with enthusiasm, demonstrating clear pronunciation, quick recall of sounds, and impressive reading fluency. The competition not only celebrated academic skill but also built self-confidence and communication abilities in our early readers.

The event concluded with applause and appreciation for all participants who truly proved that “Strong phonics makes strong readers.”

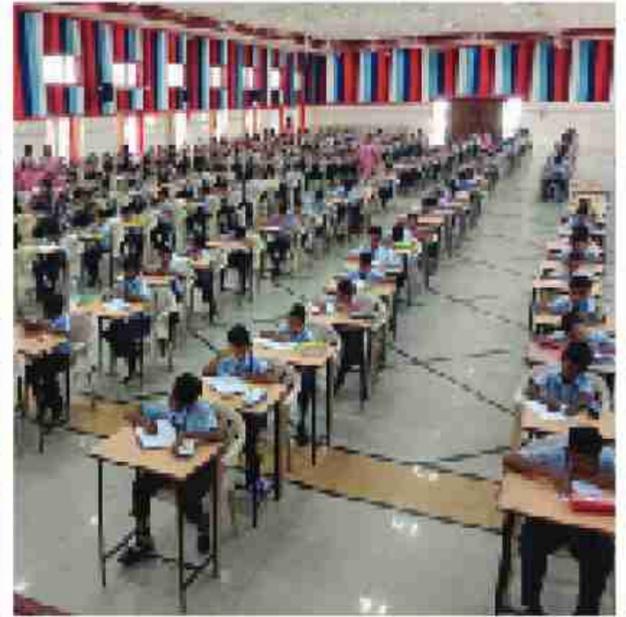

## TABLES RECITATION COMPETITION – CLASS I & II

**“When children master their tables, they multiply their confidence.”**

The Tables Recitation Competition for Classes I & II was conducted on Friday, 21<sup>st</sup> November 2025, bringing enthusiasm and energetic participation from our young learners. The competition aimed to strengthen students' numerical fluency and build a strong foundation in multiplication through clear, confident, and rhythmic recitation.

Students showcased their memory, speed, and accuracy as they recited tables with pride—from basic sequences to extended patterns. Their lively responses and steady recall reflected regular practice and dedicated effort in the classroom.

The event concluded with applause for all participants who proved that “Strong basics today become strong mathematicians tomorrow.”

## MENTAL MATH COMPETITION – CLASS III TO V

**“Math is not about numbers alone; it's about the power to think faster and smarter.”**

The Mental Math Competition for Classes III to V was conducted on Friday, 21<sup>st</sup> November 2025, energizing the campus with excitement, quick thinking, and sharp problem-solving. Students enthusiastically participated in rounds that tested speed calculations, number sense, logical reasoning, and accuracy—all without the use of paper or calculators.

The event aimed to strengthen students' numerical fluency and boost their confidence in tackling real-time mathematical challenges. Participants impressed the judges with their focus, mental agility, and ability to compute answers within seconds.

The competition concluded with appreciation for all participants who demonstrated that “A strong mind calculates beyond the page.”

## PHONICS CLASS OBSERVATION BY MRS. NOELLA MAWDSLEY

**“Great teaching begins with great reflection.”**

On Wednesday, 12<sup>th</sup> November 2025, our school had the privilege of hosting Mrs. Noella Mawdsley, an esteemed Jolly Phonics trainer, for a detailed Phonics Class Observation for Classes I & II. Between 1:30 pm and 3:45 pm, she observed the teaching-learning process, student engagement, sound-blending activities, and the practical application of phonics strategies in the classroom.

Her keen insights highlighted the strengths in our phonics instruction—interactive teaching methods, confident student responses, and effective use of multisensory techniques.

Following the observation, a constructive feedback and suggestion meeting was conducted with the teachers. Mrs. Noella shared valuable recommendations to further refine pronunciation drills, strengthen blending routines, and enhance classroom participation strategies.

## PARENT ORIENTATION PROGRAMME – UKG PARENTS

**“When parents are informed, children are empowered.”**

The Parent Orientation Programme for UKG parents was held on Saturday, 29<sup>th</sup> November 2025, with the aim of giving parents a clear overview of the Matric and CBSE curriculum options available for their ward entering Class I. The session highlighted the structure, teaching approach, assessment methods, and long-term benefits of both streams, enabling parents to make a confident and informed decision regarding their child’s academic pathway.

Mrs. Meena Elangovan, our Correspondent, addressed the gathering and shared valuable insights on parenting and child care, emphasising the importance of emotional bonding, consistent routines, and creating a supportive learning environment at home. Her words encouraged parents to partner actively with the school in nurturing their child’s overall development.

The session was well-received, and parents appreciated the clarity and transparency provided, helping them better understand the educational roadmap ahead.

**“Together, we shape futures—one informed decision at a time.”**

The session was truly enriching and reinforced our commitment to building strong foundational literacy skills.

**“Every improvement in teaching creates a brighter reader in the making.”**

## REPORT ON YOUTH PARLIAMENT SESSION

Our school Social Science Department conducted the 4<sup>th</sup> Annual Youth Parliament Session on Saturday, 29/11/25, at the SVVK Auditorium. The event was actively supported by students of Classes VIII and IX, who enthusiastically participated and demonstrated commendable confidence and leadership.

The session replicated the functioning of the Indian Parliament, providing students with an experiential platform to understand democratic procedures. The mock proceedings included oath-taking of newly elected candidates, question hour, presentation of bills, debate and discussion, closely reflecting the actual parliamentary process.

Students highlighted various socially relevant topics and engaged in structured discussions, showcasing critical thinking and public speaking. Their well-researched points, discipline, and team spirit made the event both meaningful and impactful.

The programme served as a good experience, fostering civic awareness, democratic values, and responsibility among the young minds.

## CHILDREN'S DAY CELEBRATION REPORT

Children's Day was celebrated with great joy and enthusiasm in our school on 14/11/25, Friday. To honour the spirit of childhood and to remember the birth anniversary of Pandit Jawaharlal Nehru, a special assembly was conducted by the students.

The programme began with a prayer followed by a welcome address. Students presented speeches in English and Tamil highlighting the significance of Children's Day and the values promoted by Chacha Nehru.

The school was privileged to have Dr. Loganayagi, Pediatrician from Vedika Hospital, Krishnagiri, as the Chief Guest of the occasion. In her interactive and inspiring address, she emphasized the importance of neatness, personal cleanliness, nutritious breakfast habits, and general health practices. Her words motivated students to follow a healthy lifestyle and maintain discipline in their daily routine.

The celebration continued with a variety of delightful student performances, including dance, music, and an English drama, showcasing creativity and talent. The atmosphere remained vibrant throughout the event with active participation from the students of Primary and Middle wing.

As a gesture of celebration, sweets were distributed to all the students at the end of the programme.

## THE SPELLING BEE COMPETITION

Spelling is the art of putting letters together to make words come alive."

The Spelling Bee Competition for students of Grades III to VIII was held on 28th November in the school auditorium and turned out to be a lively and memorable event. Participants were asked to spell words aloud with clarity and confidence, ensuring correct pronunciation and accuracy. To make the contest more engaging, students were also given jumbled words and challenged to rearrange them into their proper form, which tested their quick thinking and vocabulary skills. Each round brought excitement, with younger students impressing the audience through their courage and older students showcasing mastery over complex and abstract words. The audience played an active role, cheering contestants, applauding correct answers, and even attempting to solve the jumbled words themselves, which created a vibrant and supportive atmosphere.

The competition concluded with recognition of winners and appreciation for all participants, leaving behind an inspiring experience that celebrated the joy of language learning, teamwork, and healthy competition. Beyond the prizes and applause, the event instilled in students a deeper love for words and motivated them to continue exploring the richness of the English language. It also strengthened their confidence to face challenges on stage and encouraged them to value discipline and preparation.

A special note of gratitude goes to the teachers, whose dedication and guidance made the event possible. The competition was not only a showcase of student talent but also a reflection of the teachers' commitment to nurturing excellence in language learning.

## THE MATH EXPO

“Mathematics is the music of reason, and every problem solved is a note of discovery.”

The Math Expo for students of Grades VI to VIII was held on 14 th November in the school premises and proved to be an Inspiring and intellectually stimulating event. Organized to nurture curiosity, creativity, and logical thinking, the expo highlighted the practical applications of mathematics in everyday life. Students prepared and presented a wide variety of exhibits, models, charts, and demonstrations covering topics such as geometry, algebra, fractions, probability, statistics, and mathematical puzzles. Each display reflected the students' innovative approach to learning, as they explained concepts with clarity and confidence to teachers, peers, and visitors.

Adding a unique dimension to the program, a Story Corner based on Mathematics was also conducted. Here, students narrated short stories and anecdotes that cleverly wove mathematical ideas into everyday situations, making the subject more relatable and enjoyable. These stories highlighted how math is not confined to textbooks but is present in daily life—whether in shopping, travel, games, or problem-solving.

A special note of gratitude goes to the teachers, whose dedication and guidance made the event possible. The competition was not only a showcase of student talent but also a reflection of the teachers' commitment to nurturing excellence in language learning.

The event was further enriched by interactive sessions where students conducted activities, games, and problem-solving challenges. Audiences were invited to attempt riddles, solve puzzles, and engage with mathematical tricks, which created a vibrant atmosphere of participation and fun. Importantly, parents were also invited as audience members, and their presence added warmth and encouragement. They actively engaged with the exhibits, applauded creative ideas, and appreciated the effort behind each project, making the expo a true community celebration of learning.

Teachers played a crucial role in guiding and mentoring the students during the preparation phase, ensuring that the exhibits and stories were accurate, meaningful, and well-presented. The day left a lasting impression, reinforcing the idea that mathematics is not just about numbers and formulas, but a powerful tool to understand and explore the world around us. The Math Expo of 14 th November will be remembered as a celebration of knowledge, creativity, teamwork, and collaboration among students, teachers, and parents alike.

## UPCOMING EVENT – DECEMBER MONTH

DECEMBER '2025
